

STATE OIL AND GAS BOARD OF MISSISSIPPI

DOCKET NO. 46-71-253

ORDER NO. 49-71

ORDER

This cause came on for hearing before the Mississippi State Oil and Gas Board at the regular meeting held on February 17, 1971, and the Board finding that due, legal and sufficient notice of said meeting and hearing of this docket had been given within the time, manner and form prescribed by statute and rules and regulations of this Board and that due, legal and sufficient proofs of publication are on file with the Board and that said Board has full jurisdiction of the parties and the subject matter and the right to hear this cause for the purpose of considering an amendment to the Special Field Rules for the Cotton Valley Field, Adams County, Mississippi, so as to include therein a definition of the McKittrick "A" sand; and

WHEREAS, the Board, having received all of the evidence and heard the arguments of counsel, submitted in connection with said cause, is of the opinion that the said Special Field Rules heretofore adopted should be amended so as to include therein a definition of the McKittrick "A" sand and finds that such Special Field Rules heretofore promulgated did not include a definition of said sand and that to properly define said sand will promote development of oil and gas, bring about the greatest ultimate recovery of oil and gas from said field, equalize drainage from units, enforce and protect the co-equal and correlative rights of the common sources of oil and gas so that each common owner may obtain his just and equitable share of production and will prevent waste;

It is accordingly hereby ordered by the Mississippi State Oil and Gas Board that the Special Field Rules for the Cotton Valley Field, Adams County, Mississippi, be and the same are hereby amended by adding to the definition of the oil pools in said Cotton Valley Field the following:

"3. The McKittrick "A" Sand Oil Pool shall be construed to mean those strata of the Wilcox Formation productive of oil or gas in the interval between 5436-5456 in the Adco-Germany-Gulmon Cotton Valley No. 12 Well located in Section 18, Township 8 North, Range 3 West, at a location described as:

From the northeast corner of Township 8 North, Range 3 West, Adams County, Mississippi, go west along the north boundary of Township 8 North, Range 3 West, for 2983.7 feet, thence south at right angles for 3612.5 feet to location in Section 18, Township 8 North, Range 3 West, Adams County, Mississippi

as indicated on the electric log of said well, and all sands correlative of these strata productive of oil or gas."

In all other respects said Special Field Rules shall remain unchanged.

ORDERED this, the 17th day of February, 1971.

STATE OIL AND GAS BOARD
